WHY IS DECISION MAKING THE FOUNDATION OF PERFORMANCE?

IT IS THE FUNDAMENTAL THINKING PATTERN FOR ACTION

STRATEGIC DECISION MAKING FOR HIGH VELOCITY LEADERS

KEPNERandFOURIE™ Legacy

KEPNERandFOURIE™ Thinking Technologies traces its origins back to 1997. When Dr. Chuck Kepner and Dr. Matt Fourie collaborated on the design and delivery of problem solving and decision making techniques to some of the leading companies in the world. Companies that required better, faster, and more flexible techniques to improve performance.

PRODUCE IMMEDIATE AND LASTING RESULTS

Advanced courses that address today's business challenges and equip leaders to build high-performance teams

Course Overview

Strategic Decision Making I

4 Sessions, 4 hours per session

Acquire advanced leadership skills which will help you increase divisional productivity, esprit de corps and client satisfaction. Specific processes covered in the first course include:

ThinkingWise™: Apply to seemingly unsolvable situations and emerge with actions to address critical issues successfully.

PriorityWise™: Learn to consistently address 20% of the core issues causing 80% of the project difficulties.

SolutionWise™ (MaxFour): A tested approach that finds cost-effective, in-house actions to fix any project issue rapidly.

Metric Modeling: Establish productive KPI and ROI calculations to help measure, sustain and continually improve your service offerings.

Strategic Decision Making II

4 Sessions, 4 hours per session

Held 30 to 60 days after the first session, this class helps refine skills and teaches leaders how to elevate company performance. Start this class with baseline metrics and KPI's gathered after the first session and lift performance even higher by learning these processes:

CauseWise™: Teach your teams this structured approach to determine cause for project problems accurately.

RiskWise™: Identify blind spots and use cause and effect reasons to avoid risks.

SolutionWise™: Find the best compromise between various alternatives and secure clarity and alignment with all stakeholders.

ITIL® Maturity Check-up: Cover Incident, Problem, Change, Release & Deployment, Asset & Configuration or Business Relationship Management, depending on specific requests and needs of the class.
